

Now, more than ever, **is the time...**

talentmap is a simple framework to help employers **improve performance** through developing talent and skills.

It is an interactive web tool to help **streamline access** to **training, support and funding through search functions** whilst providing opportunities to share knowledge and link with training and education providers.

It enables employers of all sizes to do more to develop the talent and skills that they need to **sustain and improve current and future competitiveness.**

UKCES is leading the development and delivery of talentmap on behalf of a broad coalition of employers, governments and broker networks.

Brought to you by: British Chambers of Commerce, Business in the Community, Confederation of British Industry, Federation of Small Businesses, Talent and Enterprise Task Force, UK Commission for Employment and Skills, HMRC/Businesslink, BERR, DCSF, DIUS, DWP, Northern Ireland Executive, Scottish Government, Welsh Assembly Government, Commission for Rural Communities, Sector Skills Councils.

Transform performance through developing talent & skills.
